

: Plant compost – plant in a root riot cube.

Blue Cheese

: Photo

age:6 weeks

pot:27litres

repotted? and when?: No

Compost

nutes used and how often for soil:None yet

Air temps Not known – thermostat panel heater in grow tent. Quite warm!

Res temps (max min): Not known but under HPS lamp, so surface warm to touch.

humidity:low/medium

600w hps

Light schedule:12/12

ph level:neutral

feed schedule None yet.

First test of new HPS lamp. One plant, early switch to 12/12 (after three weeks) as I have plenty of seeds and am going to go with Sea of Green approach. Last day or so – some leaves discoloured.
